Served as coffee, the new coffee substitute known to grocers every where as Dr. Shoop's Health Coffee will trick even a coffee expert. Not a grain of real coffee in it either. Pure healthful roasted grains, malt, oats, etc. have been so cleverly blended as to give a wonderfully satisfying coffee taste and flavor. And it is "made in a minute", too! No tedious 20 to 30 minutes boiling. Test it and see. Dr. Shoop created Health Coffee that the people might have a genuine coffee substitute, and one that would be thoroughly satisfying in every possible respect. Sold by Shaffer Bros.
